

WORSHIP SITE HEALTH EDUCATION PROGRAM (WSHEP)

MEMBER FACSIMILE RESPONSE FORM

Please return via fax to 404.880.0347

The *Worship Site Health Education Program (WSHEP)* is a national project of **ISHIB** in conjunction with the National Institutes of Health-National Blood Pressure Education Program, Church High Blood Pressure Sunday. This activity is designed to help worship sites establish their own blood pressure education programs. Through outreach activities in the community, the society's health professionals visit worship sites to speak about the importance of high blood pressure control.

We are asking for your participation to speak about the importance of diagnosis and treatment of high blood pressure. Communicating the message of health awareness is important to ISHIB. Your participation in this endeavor is equally important. Please indicate your willingness to participate below:

- Yes, include me in WHSEP on **Sunday, May 1, 2005**
- I am available to speak at a later date _____
- I am not available to participate this year, however, please include the Worship Site listed below
